Monumento al Tessitore

Il monumento si trova al centro del tessuto a serice di Milano, nel quartiere di Porta Venezia. È stato realizzato dalla società privata di Alessandro Rossi, che ha voluto ricordare il ruolo del tessitore nella storia della città. Il monumento è alto 12 metri e ha una base in pietra. La statua in cima è di bronzo e rappresenta un tessitore che lavora al telaio. Il monumento è stato inaugurato nel 1975 e ha subito diverse modifiche nel tempo. Nel 1985, la base è stata ampliata e la statua è stata restaurata. Nel 1995, il monumento è stato restaurato e la base è stata ampliata ancora una volta. Il monumento è oggi un punto di riferimento per i tessitori di Milano e per i visitatori della città.

The monument is a work of art by the artist of the Italian Renaissance, Alessandro Rossi. It is a tall, slender monument with a statue on top. The statue is made of bronze and represents a weaver working on a loom. The monument is made of stone and has a base that is 12 meters high. The monument was inaugurated in 1975 and has been modified several times since then. In 1985, the base was expanded and the statue was restored. In 1995, the monument was restored and the base was expanded again. The monument is now a landmark for weavers in Milan and for visitors to the city.
